Development of a management plan for the Missisquoi Valley Rail Trail is underway. The plan aims to define a community-led vision and identify goal-oriented strategies for the trail that will foster connection to the local community, spur economic activity, and enable future investment in this community asset. Your input will help align the plan with the experience of those who use and cherish the trail.

**Please join us at this public meeting or use the survey link or QR code below to share your feedback on the short- and long-term strategies that will guide priorities for maintenance, operations, enhancements, and community connections.**
